3	BOARD OF TRUSTEES WORK SESSION MEETING
4	WORK SESSION MEETING
5	X
6	
7	
8	
9	September 16, 2013 6:00 P.M.
10	0.00 F.M.
11	BEFORE:
12	DAVID NYCE - MAYOR
13	GEORGE HUBBARD, JR TRUSTEE
14	JULIA ROBBINS - TRUSTEE
15	DAVID MURRAY - TRUSTEE
16	MARY BESS PHILLIPS - TRUSTEE
17	
18	SYLVIA PIRILLO - VILLAGE CLERK
19	JOSEPH PROKOP - VILLAGE ATTORNEY
20	DAVID ABATELLI - VILLAGE ADMINISTRATOR
21	ROBERT BRANDT - DEPUTY VILLAGE TREASURER

22			
23			
24			
25			

1	MAYOR NYCE: This is the September
2	2013 work session of the Board of
3	Trustees for the Village of Greenport.
4	Our first report is for the fire
5	department, Chief Manwaring is with us
6	this evening.
7	MAYOR NYCE: Good evening, Chief.
8	CHIEF MANWARING: Good evening.
9	MAYOR NYCE: You guys had a busy
LØ	month this month.
L1	CHIEF MANWARING: Yes.
L2	MAYOR NYCE: There was a lot of
L3	calls. I don't see any requests.
L4	CHIEF MANWARING: Yes.
L5	MAYOR NYCE: Are you guys all set
16	for this weekend?

17	CHIEF MANWARING: Yes, we are.
18	MAYOR NYCE: Are there any
19	questions on the Chiefs' Report?
20	(No Response.)
21	MAYOR NYCE: Thank you very much.
22	Our next report will be from the
23	Treasurer's Office. Treasurer Kagel
24	apologizes. Her flight was canceled and
25	it got pushed back. So we have Deputy
1	Treasurer Brandt here with us this
2	evening.
3	DEPUTY TREASURER BRANDT: There are
4	some budget mod's. I am not sure if you
5	guys received copies of those?
6	MAYOR NYCE: Yes.
7	TRUSTEE PHILLIPS: Just to clarify,
8	this is the fund balance account?

TRUSTEE PHILLIPS: The reason why I

ask is because usually people have

DEPUTY TREASURER BRANDT: Yes.

9

12 questions as to why there is a positive

13	and the two totals add up.
14	DEPUTY TREASURER BRANDT: Because
15	we're appropriating a fund balance.
16	We're raising the money for the budget.
17	MAYOR NYCE: As we have discussed
18	in the last couple of months, this money
19	will be recovered through a grant. I did
20	have a good meeting with the Power
21	Authority on Tuesday. I am waiting for a
22	letter from them that clarifies
23	everything. It looks like everything is
24	fine there.
25	In other words, you are just looking

1	for approval for the FOA?
2	DEPUTY TREASURER BRANDT: Yes.
3	That is for the health care reform.
4	MAYOR NYCE: It's pretty
5	straightforward. I did want to thank you
6	and the rest of the Treasurer's staff.
7	We got through the audit this past week.

8	I spoke to the auditors and they were
9	pleased with the progress between this
10	year than last. So we should have them
11	by November. So thank you to you and
12	your staff.
13	DEPUTY TREASURER BRANDT: Thank
14	you.
15	MAYOR NYCE: Anything else for
16	Deputy Treasurer Brandt?
17	(No Response.)
18	DEPUTY TREASURER BRANDT: Thank
19	you.
20	MAYOR NYCE: The next report will
21	be from Village Clerk Sylvia Pirillo.
22	Good evening, Sylvia.
23	CLERK PIRILLO: Good evening. I
24	would like to start from the back of my
25	addition and that would be a resolution

for a request of Mayor Nyce to sign and
execute the 2013/2014 Service Award

Program. This is our annual. They have

4 not increased their fees. So I would
5 appreciate that. I sent this a couple of
6 days ago.

7 TRUSTEE PHILLIPS: I didn't get 8 anything.

CLERK PIRILLO: I will send it again. I will be happy to resend it. I know there was a problem with the emails. Just with the closeout, we're all working together to get it closed out. The Treasurer's Office and the Clerk's Office. So that's been taken care of and it has been sent out. Very quickly, I am pleased to say that there is a system in place for the receipt of agendas. agenda for the Zoning Board meeting was finalized on Friday before the meeting and was up on the website that day. So we have confidence that we will continue along that same route. Volunteers are needed for emergency preparedness for the hurricane season is upon us. So if

1	anyone would like to volunteer, please
2	contact the Village Hall.
3	MAYOR NYCE: Specifically, the last
4	time I remember speaking with the Town,
5	looking for volunteers for the shelter.
6	That is the biggest gap. We need more
7	than one person. We need several people
8	circulating. So we're looking for a
9	couple of couples that would be willing
LØ	to rotate. So if there is anyone that is
11	interested, please contact Village Hall
12	and ask for Sylvia. I will forward that
13	on to Southold Town.
L4	CLERK PIRILLO: Trustee Murray and
L5	I have met regarding the upcoming dinner
16	monitoring. We will have that all set in
L7	place. We will be asking for a
18	resolution just as a housekeeping matter.
L9	My deputy has created a contact at
20	Freeport for their utilities and they are
21	very amenable to helping us. Even

selling us equipment that they are no
longer using. Including handhelds, which
have turned out to be very costly.

MAYOR NYCE: In your first

requests, I am asking the Board for a

1

17

7

resolution for Mr. Fogarty to go to the 2 3 NYAAP conference instead of Mr. Naylor. In two-fold, to have a better 4 understanding of the larger utilities in 5 6 general. They all function slightly 7 different. They are all willing to help out, which is good. So I think it would 8 9 be really beneficial. 10 CLERK PIRILLO: My fellow managers 11 and myself had a meeting with Attorney Prokop on 3rd of September regarding 12 13 grants and projects in process. I took the liberty of creating a synopsis of the 14 15 various grants that are currently in progress, planned projects and completed 16

projects. We're happy to say that the

18	plant project is on the list of complete
19	projects.
20	TRUSTEE PHILLIPS: Congratulations.
21	CLERK PIRILLO: Thank you. We will
22	continue to update this and inform the
23	Board of the progress.
24	MAYOR NYCE: Good.
25	TRUSTEE PHILLIPS: Any questions?

1	MAYOR NYCE: The ones that you are
2	asking for resolutions. Most of them are
3	pretty straightforward. I just wanted to
4	talk to the Board about the one regarding
5	Mr. Dunbar. Those issues have been
6	addressed. He did need to take those
7	classes. The other one was the
8	resolution of the tanks at the power
9	plant and I read Sylvia's report. My
10	suggestion was going to be just a bunch
11	of things that we should be doing at the
12	power plant. This should be part of it.

13	There are some things that I need to make
14	sure. I would just like to add this to
15	the resolution for our next capital
16	project. Get it to bid and get this
17	done.
18	TRUSTEE ROBBINS: Sylvia, just one
19	question. Under the contracts signed,
20	was the sludge removal done?
21	CLERK PIRILLO: Yes. And the work
22	will be done on Thursday.
23	TRUSTEE ROBBINS: Very good.
24	TRUSTEE PHILLIPS: Sylvia, last
25	month we approved a sludge removal

1	company, have they started?
2	CLERK PIRILLO: They will start in
3	October. They are aware. The old
4	company knows that they are no longer
5	have the contract. So that has been
6	done.
7	MAYOR NYCE: Is there anything else
8	for Sylvia?

9	(No Response.)
10	MAYOR NYCE: Thank you, Sylvia.
11	CLERK PIRILLO: Thank you very
12	much.
13	MAYOR NYCE: Jack Naylor is not
14	here with us this evening. We all got
15	reports from different department
16	supervisors. Pete Manwaring and Ray
17	Dunbar. We are transitioning with having
18	those guys come to the next work session
19	meetings for the next couple of months,
20	which I think will give it a little
21	better insight on what they do on a
22	monthly basis and allow us to ask them
23	questions. What I am going to do is do
24	some quick updating on utilities stuff.
25	Most of it from the electrical

department. We did in fact from the DNC
 test. We will run another one this
 Friday. It will be a make-up test. Upon

4 completion of this DNC test, we will be 5 back on schedule. That will give us enough time. There should be enough 6 7 window between this DNC testing and the next testing, to go through the proposal 9 that he gave us in June, Genesys. He 10 thinks that there is a considerable 11 amount that we can do on our own. So I 12 would want Jim and I sit down with the 13 list and see what we could do on our own. 14 There are also the issues of rebuilding 15 the water tank. I want to make a priority list. We have authorized a 16 17 million dollars in borrowing. We have a million dollars in cash that we're 18 19 looking to spend. We have about two 20 million dollars worth of project to do. 21 So I want to come back next Monday with 22 an authorization to complete bid sets for 23 those functions. I will submit everyone 24 this week what his priority is. This 25 round, we're basically just about

T	complete with the capital project. So he
2	thinks there at least a thousands of
3	dollars that we could do on our own. So
4	I will follow-up with that. That's a
5	brief update. I would love to tell you
6	more about the meeting with the Power
7	Authority. They asked me not to go into
8	detail. They're writing a letter to
9	memorialize our meeting. Basically a
10	memorandum of understanding of that
11	meeting. They asked that I not discuss
12	the details of that meeting because if
13	something is different then what was
14	talked about we don't want any
15	constraints on it. The letter should be
16	arriving soon. It was a very effective
17	meeting. Does anyone have any questions
18	so far?
19	(No Response.)
20	MAYOR NYCE: Okay. Ray Dunbar
21	submitted a memo. It was very thorough.
22	TRUSTEE PHILLIPS: Yes, it was.

23 MAYOR NYCE: I asked them to start
24 taking a little more initiative. I have
25 asked all the supervisors to do a memo

1	for us to have a better understanding of
2	what is going on and what things need to
3	get done. Ray put together this list of
4	what needs to get done. He does know
5	that we can't tackle this all at once.
6	He is going to meet with the Treasurer's
7	Office and come up with a timeline and a
8	list of priorities of what needs to get
9	done. Questions on any of these guys?
10	TRUSTEE PHILLIPS: I wanted to
11	bring up the water machines. Who is
12	actually monitoring the up keeping of
13	those?
14	MAYOR NYCE: The day to day
15	maintenance? The building itself,
16	cleaning out the building, is the
17	electrical department crew. The actual

18	electric on the machines is being done by
19	Pete because he actually has a license
20	for that. And the collection of monies
21	is being done by Darryl at this point.
22	Tom Cybolski used to do it.
23	TRUSTEE PHILLIPS: Is there anyway
24	that we could approve that we have these
25	water machines available for taxpayers to

2 MAYOR NYCE: Absolutely. That would be the next step. Any one that has 3 4 gone past the plant knows the roof is 5 just about done. The moral is so much 6 better. It's what can we fix up next. It's a big push to clean-up that entire 7 site. And I think that Jim is up to the 8 9 task. 10 TRUSTEE ROBBINS: I will update that the gutters have been put up. 11 MAYOR NYCE: Anything else from the 12 reports of utilities? 13

1

use?

14	(No Response.)
15	MAYOR NYCE: Our next report will
16	be from Village Administrator David
17	Abatelli. Good evening, Dave.
18	MR. ABATELLI: Good evening. Okay.
19	So I don't really have too much that I am
20	asking.
21	MAYOR NYCE: I had a chance to see
22	Cathy Matthews this week and the smile on
23	her face was ear to ear. They had 90
24	kids in the program. That program is
25	growing tremendously. It's great to see.

She is doing a fantastic job. It's 1 2 awesome. MR. ABATELLI: Also Cathy has a 3 couple of weeks off and I figured she 4 would want to work there. 5 MAYOR NYCE: It's great. It's a 6 beautiful thing to do. 7 MR. ABATELLI: Some other things.

9	We're going to be doing some work on the
10	monuments. We got a price to do
11	everything. We can't do it all but we
12	can fix some of the really bad ones.
13	MAYOR NYCE: All right. Cool.
14	MR. ABATELLI: The marina is
15	looking good. Everything is looking
16	good. Like I said, I like to look at the
17	things at the end of the season. The
18	campground is more sluggish if anything.
19	We probably should start to think about
20	if we should advertise. Other than that
21	I am really pleased with how things are
22	going.
23	MAYOR NYCE: The marina, the number
24	of the large number of sized boats that
25	are there, it's hard not to notice them.

MR. ABATELLI: Yes. So that's all going.

3 MAYOR NYCE: Cool.

4 MR. ABATELLI: I think we talked

5 about this a little bit with the school 6 house. That is an interesting thing, if 7 any one has any ideas of people that we could interview -- it's the last part of 8 9 the school house project. MAYOR NYCE: That was the most 10 11 interesting one. 12 TRUSTEE PHILLIPS: Two meetings 13 ago, Caroline who deals with the 14 historical libraries came out to give us an history of the center and her biggest 15 16 suggestion was to just get it all back. 17 Take it from there and move forward. So that really is an exciting part of it. 18 19 MAYOR NYCE: That's great. It's 20 very cool. 21 MR. ABATELLI: With the sidewalks 22 and roads, it's really the curbs that are 23 the biggest thing. So I am waiting for a 24 quote. So I will have a resolution on 25 the agenda next month.

1 MAYOR NYCE: Okay. TRUSTEE HUBBARD: Next week or next 2 3 month? You said a resolution for next month. 5 MR. ABATELLI: I mean, next Monday. To put it on the agenda. 6 7 MAYOR NYCE: I had written down 8 October. Understood. 9 MR. ABATELLI: I am requesting 10 hiring for full-time. MAYOR NYCE: John has worked out 11 12 very well. 13 MR. ABATELLI: He's doing very well. 14 15 MAYOR NYCE: He is capable of using the machine. He can clear out the rink? 16 17 MR. ABATELLI: Yes. 18 MAYOR NYCE: I thought I heard you say that he was capable of using the 19 20 machine.

MR. ABATELLI: Yes. He is capable.

MAYOR NYCE: Okay. Good.

21

23 MR. ABATELLI: So we're pretty 24 lucky to have him, as Mike Florio. MAYOR NYCE: We had discussed that 25 1 we were going to get someone full-time. This makes perfect sense. 2 Any questions for Dave? 3 4 TRUSTEE ROBBINS: Dave, I had 5 noticed on the sidewalks where you come up from Mitchell Park and the carousel, 6 7 did you see that? Do you think that can 8 be grounded? 9 MAYOR NYCE: There is another part 10 that is southern of Adams Street. The concrete has sunk inside the curb. It's 11

17

- not a grinding. It's a fill-in of sort.

 MR. ABATELLI: Okay. I will look

 into that.
- MAYOR NYCE: Anything else for
- 17 (No Response.)

Dave?

16

18 MAYOR NYCE: Thank you, Dave.

19	Our next report will be from Village
20	Attorney, Joe Prokop. Good evening, Joe
21	ATTORNEY PROKOP: Good evening.
22	The first thing that I wanted to mention
23	is, we have some cases that we are
24	working on for the electrical department,
25	some collection matters. Robert and I

1	were looking at that closely. He is
2	going over and submitting the cases. We
3	have a new person on the list that I
4	would like to be authorized, if that is
5	okay. I am working on with Dave Abatelli
6	in some code requests. Some changes
7	within our code. As you heard, we had a
8	meeting regarding the grants. In another
9	week or so, I will follow-up. Does
10	anyone have any questions for me on any
11	of these things? Anything else?
12	TRUSTEE MURRAY: Do you think we
13	have to go into Executive Session?

14	ATTORNEY PROKOP: I think we should
15	
16	TRUSTEE PHILLIPS: Well, there are
17	two items on his report that need some
18	clarification.
19	ATTORNEY PROKOP: That's fine. I
20	always appreciate Executive Session.
21	MAYOR NYCE: Thank you, Joe.
22	ATTORNEY PROKOP: Thank you.
23	MAYOR NYCE: Reports from
24	Committees. The Audit Committee met
25	today and there will be a list from the

1	Treasurer's Office abut the five grants.
2	The two stormwater projects that we have
3	out there. She has, as you recall, we
4	were awarded those grants. Some will be
5	from fund balance. Some will be in-kind.
5	So I will have Charlene and Robert put
7	together a list of what we have now.
8	We're ready to move forward with those.
9	So we're ready to move ahead with those

10	projects. So for next week's meeting, she
11	will have a list of those I'm sorry
12	for the October meeting. For Code
13	Committee, they have passed down a
14	recommendation for a change in the
15	wetlands permit fee structure. As you
16	recall sometime last year, the fee
17	structure for our wetlands fee was done
18	by cost of the project, depending on
19	particular repair work, that could become
20	absorbant pretty quickly. We looked at
21	other municipalities. So I would like to
22	advertise for next meeting, adoption of
23	the amendment to our local law for those
24	fees. The BID, I attended several
25	meetings for the BID. There main concern

1	is this weekend. They have worked very
2	closely with the East End Seaport
3	Maritime Foundation for the Maritime
4	Festival this weekend. There are a group

5 of merchants that are working very closely with them this year, which is a 6 7 big plus for the entire festival. Hopefully they get decent weather this 8 9 weekend. I mentioned last month, the East End Tourism Alliance, they channel 10 11 tourists through different website's for 12 BID and Chamber of Commerce, etcetera, 13 etcetera, to expand tourism months. They 14 are doing an event on Veterans Day, the 15 9th and 10th of November. So they are 16 going to have 13 buses doing loops around the North Fork, and wineries doing some 17 presentations. So we're looking to 18 showcase the Village of Greenport on that 19 weekend. Trustee Robbins and I have a 20 21 meeting with Southold Town to see what 22 they're doing. The BID would like to 23 hire an event planner, and maybe some outside small farms to present to the 24 25 Village. So the BID has asked them to

come out here during harvest time. As of now, there are no specific -- I think we would be supportive. There would be some additional of sanitary's and garbage pickup. Hopefully parking will be an issue. It would be nice to see people walking out here around November. So it;s at the end of harvest season for the farms. It's a great time to showcase what is out here. So Julia and I will keep everyone posted as it comes. The next portion of the meeting will be from Reports from the Trustees and Mayor. I will ask Trustee Hubbard. TRUSTEE HUBBARD: I worked on a

22

23

TRUSTEE HUBBARD: I worked on a bunch of things. None of them are really finalized yet. I will report back with more information in the future. I did meet with Bridge Hunt about the ferry and the traffic and all that such. The Mayor has an appointment the Town of Southold next Monday that Bridge was going to go with the Mayor and myself and depending

1	it.
2	MAYOR NYCE: Okay. Cool. I will
3	reiterate that Bridgeford and I did sit
4	down and is very similar to your
5	conversation. As traffic does increase,
6	we have to there is a lot of people
7	coming off the boats during that time.
8	So that is why George and I requested
9	that we put it to the Transportation
10	Commission.
11	Trustee Robbins?
12	TRUSTEE ROBBINS: Well, you pretty
13	much covered the meetings that I
14	attended.
15	MAYOR NYCE: Sorry.
16	TRUSTEE ROBBINS: That's okay. I
17	did attend the Audit committee and talked
18	with Robert Brandt. Every thing seems to

be on track. I also did as well attend
some of the BID meetings and discussions
initially well, right now, it was
about the Maritime Festival. Also there
was an opportunity for TV spots and how
much money. So it's part of that Greater
New York Campaian. So they want to do a

spot for us. So we're just trying to decide on what kind of venues to use. MAYOR NYCE: I think that's great. Trustee Murray? TRUSTEE MURRAY: I am happy to say that the Light Plant roof is done. I wanted to compliment Mr. Olinkiewicz. I think everyone at the Light Plant was very happy with him. He did a very nice job of working with crew to try and cover everything. He also gave the Village a gift that I wanted to mention. The facia boards that needed to be repaired, it was above and beyond what the original scope

15	f the project and he has donated that to
16	the Village. A little over a few
17	thousand dollars. So I just wanted to
18	mention that to everybody.
19	MAYOR NYCE: Wow. That's fantastic.
20	TRUSTEE MURRAY: He was happy with
21	the project. He wanted to give that to
22	us. There is still a lot of work to do or
23	the mason work. That is like the next
24	phase. The tiles and things like that. So
25	we can work on that next. So it

1	worked out well.
2	MAYOR NYCE: Thanks again. You put
3	a lot of effort into that.
4	TRUSTEE MURRAY: It was good.
5	MAYOR NYCE: Yes. Trustee Phillips?
6	TRUSTEE PHILLIPS: Well, I attended
7	the BID which was already discussed. The
8	building was already discussed. The only
9	thing that I would suggest is that we're

10	nearing the end of the brush pick-up, is
11	maybe for the future, people need to be
12	aware of it. Also, I need to come up with
13	an inventory of what Christmas
14	decorations we have or what we have left.
15	To see what we have.
16	MAYOR NYCE: As a suggestion, I
17	know there are some specific ornaments
18	what I would suggest that they do a photo
19	inventory of where the stuff is. So we
20	can decide whether or not it has to be
21	there.
22	TRUSTEE PHILLIPS: That was part of
23	the meeting. It's a good thing.
24	MAYOR NYCE: Absolutely.
25	TRUSTEE PHILLIPS: I also have been

talking to some neighbors. Maybe it

might be good to have Peconic Trust come

back and give us some update on the

property, as to what they have done. It's

been a year. So it would be nice to see

6	what is going on and what are the plans
7	for the future.
8	MAYOR NYCE: I will call. I will
9	give a call and see if they would be
10	willing to do a presentation.
11	TRUSTEE PHILLIPS: I think it would
12	be good for the Village.
13	MAYOR NYCE: The other thing that I
14	have been doing is looking at the assets
15	for the Village. And I know there has
16	been some discussion, but I think we need
17	to come up with some
18	MAYOR NYCE: I think this is going
19	to fall under contract negotiations.
20	TRUSTEE PHILLIPS: Okay, then
21	that's it.
22	MAYOR NYCE: Fantastic. I have
23	several things. I have a guest John
24	Sabarini. John is a Greenport resident
25	who has introduced himself to me. He has

1 actually volunteered to help me 2 consolidate information on the Green Energy Park project. To help consolidate 3 the information and donate his time. 5 part of that, two months ago, we came up with the idea and he was walking around 6 7 -- actually I will turn it over to John. 8 MR. SABARINI: Good evening. 9 you for the opportunity. Just a little 10 background. I have lived in Greenport full-time for four years now. It's been a 11 12 vacation home for 10. I just love it out here. So he has presented me with the 13 idea of the Green Energy Park. I am a big 14 fan of solar. I have had panels on my 15 house for five years now and I don't pay 16 17 any electric. So between the carousel and the waterfront, I am going to call it a 18 19 platform, where the park benches are. There are some shade awnings. Obviously a 20 21 decorative feature for the park and it's 22 function. I looked at that and so another

opportunity and that was to add solar

24	panels to the top of that structure,
25	which would replace the canvas, providing

1	shade and shelter from the elements. So
2	I asked Dave if that had any merit and he
3	said yes. I guess the idea had floated
4	several years back and I guess the idea,
5	they were not in favor of it. I put my
6	panels on my about five years ago. It's
7	still a good turn in my investment. So
8	with that, I put a little presentation
9	together. I have six copies here and I
10	will pass it around. Basic review of
11	what I am trying to propose here. I
12	summarize costs. I did go out and get
13	three cost estimates. You can see the
14	fourth estimate. That came in after I
15	created this document. It was in line
16	with the first three. So I just wanted
17	to look at what we can really generate in
18	the way of electricity. Three local
19	contractors. They summarize the costs

here. From \$80,000.00 to \$220,000.00,

which is really on the very high side.

So I don't know if that contractor got it

right. So I calculated an investment

within 14-15 years. That was based on a

moving target with the costs of power.

1	As David described it to me, it really
2	bounces all over the place. My solar
3	panels, I can do a wireless internet and
4	track the performance of it on an hourly
5	in a day and the performance in a year.
6	I thought it would be a nice thing to
7	add, a flat panel monitor. Maybe in the
8	dock master's office. So people can see
9	what's coming out of this. Maybe the
10	high school students can maybe I can
11	get involved in the program and help
12	monitor. You know, showcasing the fact
13	that we are environmentally aware. I
14	thought this would be great at Mitchell

Park. There is one other minor cost and
that is the annual maintenance of the
canvas. I don't know what the life
expectancy of the canvas, I would say ten
years on the side. I am sure you will
replace that canvas within 7 to 10 years
and there is an annual cost of taking it
up and taking it down. I put in my
contact information. I would be happy to
talk about it. So the next page in the
packet, Dave came up with the smallest of

1	the three and that would be 16,000 watt
2	system at a cost of roughly \$80,000.00.
3	That's an install cost except some
4	reengineering of the area. The next one
5	was from Green Logic. Whether they
6	misunderstood. I don't know or they
7	really don't want to do the project.
8	They did the panels on my house and they
9	did a great job. I was really happy with
10	them. So they came up with three

different proposals. From a high profile
to a low profile. Again, there is
picture of it and it almost looks like a
flat screen TV. It's pretty. You're
going to pay a few extra bucks for it but
going with the beauty of it, this I think
would look really nice. I told them that
this is really a preliminary. That I
would not hold them to this. So as you
can see just some more information on the
types of panels and packages. I did do
some figures here on what your return on
investment would be. If you didn't want
to spend the money for the really high
fancy panel, we would see about a 14 year

1	on investment. These panels have about o
2	30-40 life expectancy. So I think that
3	the Village would really make a profit
4	after around year 10.

5 MAYOR NYCE: One thing that I did

6	want to do, if we go ahead, is have an
7	engineering firm run the numbers to see
8	what we're really at. I have to say, he
9	is very persistent and I want to thank
10	you for taking the time to do this.
11	MR. SABARINI: We also might
12	qualify from OSHA or something. We
13	haven't even gone there.
14	MAYOR NYCE: And that is something
15	that I am going to be researching. This
16	is a new idea. I am going to take it
17	very slowly. I want to make sure that
18	everyone gets a chance to look at it and
19	maybe we can talk about it in a couple of
20	months. John has graciously said that he
21	would come back to answer any questions.
22	Foes anyone have any questions for
23	John?
24	TRUSTEE ROBBINS: I do but I think
25	I am aoina to save it for when I hear

2	MAYOR NYCE: Thank you, John.
3	MR. SABARINI: Thank you everyone.
4	MAYOR NYCE: Okay. I have a few
5	things. The Farming Bureau has received
6	a grant to recall the deering. So we
7	would not be asked to pay the same amount
. 8	as Southold Town. They are also putting
9	together a group that will meet regularly
10	and with a liaison. They need someone
11	from this Board to interact with. I know
12	Southold Town is planning on doing a Deer
13	Management meeting. So I will pass along
14	this, Trustee Murray on what we're doing.
15	The next one is I had a long
16	conversation today with the woman with
17	Tall Ships. This is the 2015 event that
18	the Tall Ship America that they're
19	working on. They are focusing it on the
20	maiden voyage that brought General
21	Lafayette to the US during the
22	Revolutionary. So this is going to make
23	the same voyage, from France I believe
24	to New York and down. Last year, I think

1	ships to negotiate with those ships.
2	What they are asking this year is asking
3	us to put in a proposal. All the same
4	stuff and things. Just done in one
5	package. There should be a great deal
6	more press outside of our region.
7	Advertising certainly from the New York
8	State area but also the tri state area.
9	I sent her an e-mail that we do intend to
LØ	bid. I was going to pull our last folder
L1	from the 2012 project and scale around
L2	the same thing. There is a good and bad.
L3	It potentially gives us a third day in
L4	Memorial Day. They are going to be in
L5	the New York area in early July. It's
16	two summers away. It should be a pretty
L7	cool event. I also did learn that
L8	anything that we submit to them as an
19	REP. it needs the blessing of this Board.

20	They're excited. I am as well. I think
21	we are in a different market that they
22	are used to. They would very much like
23	us to participate. What I am looking
24	from you guys is the okay to put this
25	through. Basically it's just saying yes,

1 that we are going to participate. That's it. Just take the model that worked out 2 last time and slightly modify it. 3 Does anyone have any serious 4 5 objections? TRUSTEE PHILLIPS: No. I just 6 7 think the time period that we had last time was short. So if you are going to 8 hire a coordinator, I just hope --9 MAYOR NYCE: After the last event, 10 I am not sure I would hire a coordinator 11 12 to do sponsorship dollars. I would hire someone to do the marketing. So that was 13 a lesson learned. What worked and didn't 14 work. There was some really successful 15

portions of that event. To end on a sour
note, I got a bunch of calls about the
fireboat being at the railroad dock. A
bunch of calls from Suffolk County. We
get nothing but headache from that
commercial dock. The county gives us an
answer and then doesn't. I am suggesting
that we allow the County to take back
over the dock. It's a liability to us.
It's not a big income dock. If we're not

1	allowed to maximum the revenues from that
2	facility, my suggestion is that we not
3	have that liability. It's not necessary
4	to the Village's rate benefit. If there
5	were a bunch of fishing boats wanting to
6	come in, it's a different story. So I am
7	just going to stop there. I will open it
8	up to see if anyone wants to comment. I
9	will also ask the Village Attorney on
10	where that sublease stands and

11	investigate where that is. Does anyone
12	have any thoughts?
13	TRUSTEE HUBBARD: When the Board
14	voted to bring the boat in June, it was,
15	you can't pass it unless we say you can
16	do so. Then why are we even in charge of
17	it. If they go through all the gripe
18	through a yes or no. If they want the
19	overall right to say yes or no, then they
20	should take it over and deal with it. The
21	idea of the boat, I think it's neat. But
22	we are stuck between a rock and a hard
23	place. It's we have control or we don't
24	If we can't do this, then they should
25	handle this.

1	TRUSTEE PHILLIPS: I have to say
2	for once, I have no idea of what you're
3	talking about. Ya-hoo.
4	MAYOR NYCE: Okay. I just see it as
5	a huge liability and I don't think that
6	it's worth it. It either makes sense or

7	it doesn't. I have given it a lot of
8	thought. I think that it's the best way
9	to go. So that is all I have. So I will
10	offer a motion to adjourn to Executive
11	Session to discuss personnel matters and
12	contract matters.
13	TRUSTEE ROBBINS: Second.
14	MAYOR NYCE: All those in favor?
15	TRUSTEE HUBBARD: Aye.
16	TRUSTEE ROBBINS: Aye.
17	TRUSTEE MURRAY: Aye.
18	TRUSTEE PHILLIPS: Aye.
19	MAYOR NYCE: Aye. We are adjourned.
20	Thank you very much.
21	
22	(Whereupon, the meeting concluded.)
23	
24	
25	

2	CERTIFICATION
3	
4	
5	I, Jessica DiLallo, a Notary Public for and
6	within the State of New York, do hereby certify:
7	THAT, the witness(es) whose testimony is
8	herein before set forth, was duly sworn by me, and
9	THAT the within transcript is a true record of
10	the testimony given by said witness(es).
11	I further certify that I am not related either
12	by blood or marriage to any of the parties to
13	this action; and that I am in no way interested
14	in the outcome of this matter.
15	IN WITNESS WHEREOF, I have hereunto set my
16	hand this day, September 25, 2013.
17	
18
