7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village residents have continued village-wide clean-up initiatives. Cleaning litter and other human generated waste off of village streets continues to be a focus for public participation. There have been many volunteers that have participated in removing items that would otherwise find there way to surface waters.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has removed litter and debris from various volunteer clean-up sites. The village conducts regular patrols at village parks and often finds bags of garbage that have been collected by volunteer helpers. Additionally, the recently installed Doggy-Waste Stations are regularly restocked at all locations.

C. How many times was this observation measured or evaluated in this reporting period?

		1	2
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village is currently in the process of planning for the implementation of four new road-end drainage projects. We expect to complete construction of stormwater management facilities at almost half of all road-ends in the village by the end of 2018. With public involvement and participation we expect that we can meet this goal.

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Road Department continues to inspect outfalls on an annual basis to determine if illicit discharges are present. Street sweepings are recorded in a log book and any possible issues are noted and brought to the attention of the field supervisor.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Street Sweeper log is kept in the Street Sweeper and is filled out at the beginning and end of each run. Notes are kept and issues are reported promptly. Inspection reports for each outfall are completed and filed.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village has implemented a storm drain marker system for preventing illicit discharges. No additional activities directly related to illicit discharges are planned for the next reporting cycle. No illicit discharges have been observed during this cycle, therefore continued monitoring is the only planned activity. No implementation schedule is included due to the fact that this activity is ongoing.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village still maintains that it did not have any parcels under development that are an acre or larger. All projects are still encouraged to enlist best practices for preventing infiltration into impaired waterways.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Projects are evaluated on a case by case basis. When a project with close proximity to an impaired waterway is planned the Building Department assesses the need for preventative measures and acts accordingly to preserve waterway integrity.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village has had no developments of acre or more of land. We have passed local legislation that mandates owners and operators to enter formal maintenance agreements with the Suffolk County Clerk in the form of deed restrictions on qualifying sites.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Although we have not had any projects disturbing land of an acre or more, the Village still encourages post-construction best management practices.

We continue to outreach and encourage post-construction best practices. No implementation schedule is planned due to the low frequency in the Village of these types of projects. The Village has already implemented legislation to handle this type of development in the event that the need arises.

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Road Department BMP has been successful. Street Sweeping is done often in the Village. During the sweeping the operator is trained to look for illicit discharges. The Village was able to have several catch basins cleaned out during the reporting period.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Debris removed from the catch basins and a concise Street Sweeping logs demonstrate the effectiveness of the BMP to reduce waste from entering impaired waterways. Recently the Village completed the installation of curbside rain gardens on Main Street. The project included installing eight curbside rain gardens to provide pre-treatment to stormwater. The gardens provide native vegetation to help eliminate pathogens and pollutants for entering surface waters.

The Village is planning to implement new road-end drainage facilities. Through a grant process the village is expecting to install new bio-retention swales at the end of four residential streets. The construction is expected to be completed by the beginning of 2019.
